

There are NO motorised vehicles allowed in Dobson Park except emergency vehicles!

If you need access for a function then contact the Village Office.

Please respect this space and its users. Anyone found abusing this policy will be reported to the RCMP.

Please respect your neighbourhood.

Spring is upon us along with the thaw, please remember if you are pumping standing water off your property that you do not pump it into a neighbour's property or directly onto the road.

You must pump the water into a culvert so that it makes its way to the lake. If you need advice on the best place to pump please contact the Village office, one of our public works staff will be happy to help you.

Another method would be to get the standing water pumped professionally by a septic hauler.

Thank you very much for your consideration.

For information - the land to the West side of Tower Road (the entrance to Buena Vista) is private property. Please do not park any non-motorised or motorised vehicles on there.
