The Village is a member of this effective alerting system. We have two staff members that are trained to issue alerts for our community.

What is SaskAlert? – It is the Government of Saskatchewan's emergency public alerting program that provides critical information on emergencies in real time, so you can take action to protect yourself, your family and your property.

Who can issue alerts? - Environment Canada, Government of Saskatchewan ministries, Crown corporations and agencies as well as participating municipalities and First Nations.

What types of emergency events are alerted on?

A) Weather alerts from Environment Canada may include:

- Tornadoes - watches and warnings
- And any warnings issued for: blizzard, blowing snow, dust storms, extreme cold, freezing drizzle, freezing rain, heat and rainfall, severe thunderstorm, snowfall, wind, and winter storm.

B) Alerts issued by the province as well as by local municipalities and First Nations may include:

- wildfires, flooding, train derailments, power outages, drinking water advisories, local emergency declarations, communication outages, road closures, and evacuations.

How can I receive alerts?

Critical emergency alerts can be received through all radio and TV broadcasters licensed to operate in Saskatchewan as well as through the saskalert.ca website App and The Weather Network.
