Mr & Mrs Neuman and still concerned that the drainage project to the north of their property is not drainage adequately, they feel the boring project is too high. Council assured them that we will continue to monitor the ditch after each rainfall and public works with clean out any debris.

Tony Lovas was concerned that there is not adequate draining to the south of Woodland Bay, Council will work with public works to find a more permanent method of draining through the ditches without it affecting the north side of the street.
